CHAOSScon - Sponsor Prospectus

About CHAOSS

The CHAOSS community develops metrics, methodologies, and software for understanding open source project health. By measuring open source project health, CHAOSS seeks to improve the transparency and actionability around open source projects so that relevant stakeholders can make more informed decisions about open source project engagement (<https://chaoss.community/>).

About CHAOSScon

CHAOSScon brings together industry and academic professionals through talks and workshops focused on open source community health metrics, sharing experiences, and discussing ideas. As a sponsor of CHAOSScon you are encouraged to participate in the event.

CHAOSScon North America 2019 is co-located with the Linux Foundation Open Source Summit North America 2019 conference in the Hilton San Diego Bayfront, and we expect 50-75 attendees. CHAOSScon is held twice a year, in February co-located with FOSDEM in Brussels and in August co-located with the Open Source Summit North America.

Sponsorship Packages

Packages	Bronze	Silver	Gold
Pricing	\$500	\$1000	\$2000
Logo on website	Yes	Yes	Yes
Swag distribution*	Yes	Yes	Yes
Logo in intro slides	Yes	Yes	Yes

Sponsoring CHAOSScon will recognize your organization as a supporter of critical issues around open source project health to academics and practitioners from organizations of all sizes and industries including consulting, retail, software, open source foundations, and open source companies. If you are interested in sponsoring, please contact Matt Germonprez at germonprez@gmail.com

Use of Sponsorship Proceeds

We aim to keep CHAOSScon free for attendees. Sponsorship proceeds would be used to finance the conference venue, coffee, snacks, breakfast, and lunch for all attendees.
